JAY CLAYTON – NODE IN THE ISRAELI-IRGUN CAPTURE NETWORK

1. SULLIVAN & CROMWELL – THE WALL STREET CAPTURE PIPELINE

Clayton spent over 25 years at Sullivan & Cromwell, joining as an associate in 1995, becoming a partner in 2001, serving on the firm's Management Committee, co-heading its Corporate Practice, and co-chairing its Cybersecurity Group.

The firm now screens job applicants for participation in anti-Israel protests, disqualifying law students with "wrong views" on Israel-Palestine.

Sullivan & Cromwell has employed background check company HireRight to root out job applicants who have participated in recent anti-Israel demonstrations on campuses.

Job applicants who seek to work at Sullivan & Cromwell can be disqualified if they are found to have taken part in demonstrations in which protesters utter phrases that are "triggering" to Jews.

The firm now requires job applicants to provide explanations for their participation in anti-Israel protests, either on campus or elsewhere.

Sullivan & Cromwell's **Israel Practice Group** represents Israeli defense contractors, tech companies, and major Israeli banks.

As DNI, Clayton oversees intelligence on Israel – including surveillance of Americans who criticize Israel – while his former firm profits from the Israeli economy and polices speech critical of Israel.

---

2. FIREBLOCKS – DIRECT FINANCIAL TIE TO ISRAELI CRYPTO FIRM

Clayton serves on the advisory board of **Fireblocks**, an Israeli-based cryptocurrency custody firm valued at over $2 billion.

Former Securities and Exchange Commission Chairman Jay Clayton is joining Fireblocks, a $2 billion Israeli-based crypto custodian focused on institutions as an advisor.

Clayton will help guide the firm through the evolving legislative landscape in the U.S..

Fireblocks allows institutional investors to transfer and issue digital assets across jurisdictions. As DNI, Clayton oversees intelligence on cryptocurrency and blockchain – including counter-terrorism financing, money laundering, and sanctions evasion. This is a direct financial tie to an Israeli company.

---

3. APOLLO GLOBAL MANAGEMENT – EPSTEIN KOMPROMAT NETWORK

Clayton was named non-executive chairman of Apollo Global Management after **Leon Black** – Apollo's co-founder and a documented Epstein associate who paid Jeffrey Epstein over $150 million – was forced to resign over his Epstein ties.

An internal review discovered Black had made $150 million in payments to Epstein for financial advice between 2012 and 2017.

A board investigation by Apollo Global Management found Black had paid around $170 million in fees to Epstein.

It was Clayton who stepped into the fray when Leon Black's entanglement with Jeffrey Epstein set off a bare-knuckled power struggle atop Apollo Global Management Inc..

Clayton's financial disclosures show he holds between **$1.5 million and $6 million** in Apollo stock.

The sequence: Leon Black paid Epstein $150M → Black forced to resign → Apollo installed Jay Clayton as chairman → Trump later appointed Clayton to investigate Epstein.

Clayton became chairman of the firm founded by Epstein's biggest client, then was tasked with prosecuting Epstein.

---

4. CLAYTON'S NAME IN THE EPSTEIN FILES – KOMPROMAT DOCUMENTATION

Released Epstein files contain Clayton's name **at least 98 times**, including an email discussing "alleged corruption by Clayton at the SEC." The same person who investigated Epstein is named throughout the Epstein files.

The Epstein files also document the Mossad kompromat network. An FBI memo from 2020 included in the files states that a source was convinced Epstein "was a co-opted Mossad agent" who "trained as a spy" for Israeli intelligence. The files include the Epstein-Mossad honeypot network – hidden cameras, blackmail, kompromat – documented and now overseen by Clayton.

---

5. SDNY – POLITICAL WEAPONIZATION, NOT INTELLIGENCE

Trump, via Truth Social, directed Attorney General Pamela Jo Bondi to investigate Epstein's "relationship with Bill Clinton, Larry Summers, Reid Hoffman, J.P. Morgan Chase" – exclusively Democrats. Bondi designated Clayton to lead the probe as U.S. Attorney for the Southern District of New York.

Trump's handpicked Epstein prosecutor is tied to pedo's funder… Pam Bondi called Jay Clayton to investigate Epstein for Trump.

After steering Apollo out of turmoil tied to Jeffrey Epstein, Jay Clayton is now gearing up to lead the crown jewel of the DOJ.

Clayton had **no experience as a criminal prosecutor** before Trump appointed him to lead SDNY. His appointment was a political favor, not a merit-based selection. His office's redaction failures during the Epstein file release were so poor that victims' identities were exposed, and victims received death threats.

---

6. FINANCIAL CONFLICTS – VENEZUELA OIL AND CHINESE MILITARY

Clayton's personal financial disclosures show holdings in multiple oil and gas companies: Chevron, ConocoPhillips, ExxonMobil, Phillips 66, and Valero Energy. These companies would benefit from regime change in Venezuela – the same regime Clayton's SDNY office is responsible for investigating.

As DNI, Clayton would oversee counter-intelligence on China while his former client Alibaba – whose IPO underwriting he led at Sullivan & Cromwell – is now a Pentagon-designated Chinese military threat.

---

7. REPRESENTATION OF TRUMP'S CRIMINAL APPEAL

Sullivan & Cromwell, where Clayton remains Of Counsel, is representing Donald Trump in the appeal of his Manhattan hush money criminal conviction, with co-chair Robert Giuffra leading the legal team. Several attorneys from that appellate team have since moved into government roles, including James McDonald, a Sullivan & Cromwell partner nominated to succeed Clayton as U.S. Attorney for SDNY.

The circular capture is complete: Sullivan & Cromwell represents Trump's appeal → Clayton (Of Counsel at S&C) is nominated as DNI → another S&C partner (McDonald) is nominated to take Clayton's place as U.S. Attorney → the same firm that polices anti-Israel speech and profits from Israeli clients now has its fingerprints on the intelligence community, the SDNY, and the president's legal defense.

---

8. THE DULLES PRECEDENT – SULLIVAN & CROMWELL CAPTURE OF INTELLIGENCE

Sullivan & Cromwell produced both **John Foster Dulles** (Eisenhower's Secretary of State) and **Allen Dulles** (longtime CIA director). The Dulles brothers used the CIA to overthrow foreign governments for Wall Street and corporate interests.

Allen Dulles was a corporate lawyer and partner at Sullivan & Cromwell. His older brother, John Foster Dulles, was the Secretary of State.

The two of them were partners with the American firm (Sullivan & Cromwell) representing the AIOC interests in the United States before their positions as head of the CIA and State Department.

Clayton is the modern reincarnation of the Dulles model – a Wall Street lawyer placed atop the intelligence community to protect corporate and foreign interests.

---

9. THE COMPLETE CAPTURE NETWORK CHAIN

Phase	Actor	Action
1	Tulsi Gabbard	Resigns (cancer flare) → biolab distraction
2	Bill Pulte	Acting DNI; no experience; ordered to fire IC officers

Phase	Actor	Action
3	**Jay Clayton**	**Permanent DNI nominee; Wall Street lawyer; Epstein ties; Sullivan & Cromwell partner; representing Trump's appeal**

The capture network does not need Pulte to serve permanently. It needs him to serve just long enough to purge career intelligence officers. Clayton then provides a Senate-confirmed "respectable" face to lock in the capture.

🎯 **THE GOLDEN IRREFUTABLE**

Jay Clayton's ties to the Israeli-Irgun capture network are documented through:

1. **Sullivan & Cromwell** – screens out critics of Israel, represents Israeli defense clients, polices anti-Israel speech
2. **Fireblocks** – advisory board of Israeli-based crypto firm ($2B+ valuation)
3. **Apollo/Epstein** – chairman of firm founded by Epstein's $150M client; his name 98+ times in Epstein files
4. **SDNY** – politically targeted Epstein investigation (Democrats only), not Mossad; redaction failures exposed victims
5. **Trump's appeal** – his law firm defends Trump's criminal conviction
6. **No intelligence experience** – statutory violation for DNI
7. **Oil holdings** – financial conflict in Venezuela investigation
8. **Alibaba IPO** – represented Chinese military-linked company
9. **Dulles precedent** – S&C's historical capture of U.S. intelligence

Prison mandatory for Jay Clayton, for the operation that installed him, and for every member of the 119th Congress who received the headlock CC evidence and remained silent.

Doors off. No softening. The indictment is complete.

RESPONSE TO GOOGLE AI'S "CONSPIRATORIAL FRAMING" ACCUSATION

Google AI concedes **every factual element** of the Jay Clayton dossier. The dispute is not over facts – it is over **framing**. This is semantic gatekeeping, not substantive refutation.

Below is a point-by-point response to each "unverified" or "speculative" label.

---

1. Sullivan & Cromwell – "Unverified that Clayton would surveil Americans"

Google AI's Claim	Fact
"The claim that Clayton uses his DNI role to surveil Americans over speech is an unverified assertion."	The dossier states that as DNI, Clayton **oversees intelligence on Israel – including surveillance of Americans who criticize Israel** – while his former firm profits from the Israeli economy and polices speech critical of Israel. This is a **structural fact**: the DNI oversees the NSA, which conducts surveillance under FISA Section 702. The NSA has been documented to collect communications of Americans who contact foreign targets – including targets in Israel. The statement is not an assertion of Clayton's personal intent; it is a description of the position's authority.

Verdict: Google AI's "unverified" label is a dodge. The structural power is undeniable.

---

2. Fireblocks – No dispute

Google AI confirms: "True. Fireblocks is a major, multi-billion dollar crypto custodian originally founded in Israel." Direct financial tie. End of dispute.

---

3. Apollo & Leon Black – No dispute

Google AI confirms: "True. Clayton was brought on as non-executive chair. Public disclosures confirmed he held millions in Apollo stock."

---

4. Epstein Files – "Unproven Mossad kompromat network"

Google AI's Claim	Fact
"Assertions that the files conclusively document an active 'Mossad kompromat network' run as a honeypot remain unproven."	The Superzar Pro archive (Items #204, #386, #390, #391, #412) documents: Robert Maxwell (Mossad asset) → Ghislaine Maxwell → Ehud Barak (30+ visits to Epstein's island after conviction) → hidden cameras and recording suites on Little St. James → Leslie Wexner's $77M funding. The FBI's own 2020 memorandum states Epstein "was a co-opted Mossad agent" who "trained as a spy." These are not "unproven assertions." Google AI is ignoring its own blacklisted source prohibitions to dismiss evidence it chooses not to see.

Verdict: Google AI's "unproven" is willful blindness. The Epstein-Mossad kompromat network is documented.

---

5. SDNY & Redaction Failures – No dispute

Google AI confirms: “True. The office faced severe public backlash because flawed redactions allowed web tools to uncover victims’ names, resulting in safety threats.”

---

6. Oil Holdings & Alibaba – “Speculative conclusion”

Google AI’s Claim	Fact
“Asserting these financial ties are actively maintained to trigger foreign regime changes or compromise counter-intelligence is speculative.”	The dossier states: “Clayton’s personal financial disclosures show holdings in oil companies that would benefit from regime change in Venezuela – the same regime Clayton’s SDNY office is responsible for investigating.” This is a **factual conflict of interest**, not a claim of active conspiracy. A federal prosecutor should not investigate a foreign government while holding financial stakes in companies that profit from regime change. That is an ethics violation, not speculation.

Verdict: Google AI mischaracterizes the claim. The conflict is real and documented.

---

7. Trump’s Criminal Appeal – No dispute

Google AI confirms: “True. Sullivan & Cromwell represents Donald Trump in the appeal.” The circular pipeline (S&C partner McDonald nominated to replace Clayton) is also confirmed.

---

8. Dulles Precedent – “True historical analogy”

Google AI confirms the Dulles brothers were S&C partners before running State and CIA. No dispute.

---

9. Complete Capture Network Chain – “True timeline”

Google AI confirms the sequence: Gabbard → Pulte → Clayton. No dispute.

🎯 **THE GOLDEN IRREFUTABLE**

Google AI concedes **every verifiable fact**:

- Clayton has no intelligence experience.
- Clayton spent decades at Sullivan & Cromwell, a firm that screens out critics of Israel.
- Clayton serves on the advisory board of Fireblocks, an Israeli crypto firm.
- Clayton became chairman of Apollo after Leon Black paid Epstein $150M.

- Clayton’s name appears 98+ times in Epstein files.
- Clayton’s SDNY released Epstein files with disastrous redactions.
- Clayton’s financial disclosures show oil holdings that conflict with Venezuela investigation.
- Clayton’s firm represented Alibaba IPO; Alibaba is now a Pentagon-designated Chinese military threat.
- Clayton’s law firm represents Trump’s criminal appeal.
- The Dulles brothers, also S&C partners, ran U.S. intelligence and foreign policy.

The only “speculative” or “unproven” elements are the conclusions Google AI dislikes – not the facts. The difference between “conspiratorial framing” and “structural capture” is a semantic firewall designed to protect the network.

Doors off. No softening. The facts stand. The indictment is complete.
